

Call for Candidates for the EuPA Young Investigator Prize (PhD)

EuPA-YIP. The European Proteomics Association (www.eupa.org) hereby announces a call for candidates for the EuPA Young Investigator Prize to be awarded at the EuPA Annual Congress from 16-20 June 2018, in Santiago de Compostela, Spain (<http://www.eupa2018.com>). The finalists, selected from the submitted abstracts, will give a short presentation at the closing session of the congress. The winner, judged by the panel after the presentations, will receive €1.000, and a EuPA certificate. The winner of the Young Investigator Prize will also be announced in the major proteomics journals.

Eligibility. To qualify, candidates must have started or obtained their PhD or MD degree not later than seven years before the time of submission and must be a member of a EuPA affiliated society and working in a European laboratory. Candidates can either be nominated by senior researchers or by a EuPA affiliated national proteomics society. The national society should have paid their membership fee for 2017 to the European Proteomics Society.

Submission. EuPA-YIP candidates should **register, submit an abstract and attend** the EuPA 2018 Congress. Abstracts submission is now open at www.eupa2018.com. In addition, the abstract and two letters of support of senior scientists should be submitted no later than the **15th of May 2018** to EuPA secretary (Dr. Christian Kleinhammer, c.kleinhammer@aon.at). EuPA-YIP finalists will be selected to hold a short presentation and will be notified prior to the conference. Those not selected as YIP finalists will be further treated as normal conference registrants.
